# NOTICE

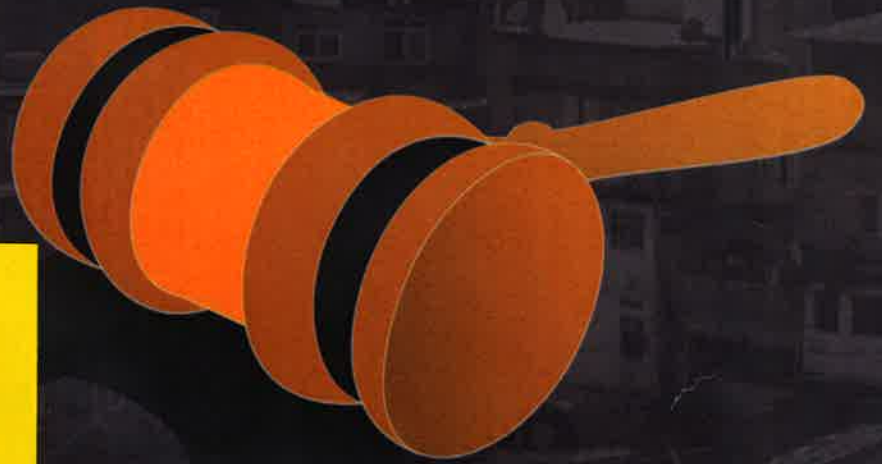

14

Due to the Nova Scotia wild fires, we will be hosting COLTON'S AUCTION online.

Visit [www.iron.dog](http://www.iron.dog) for more details

# COLTON'S AUCTION

## GOING ONLINE

**On behalf of one of our  
senior Iron Dog technicians,  
Steve Burns' four year old  
son Colton**

*Colton, was diagnosed in March with Juvenile Myelomonocytic Leukemia (JMML). JMML is very rare, with the only cure to receive a stem cell transplant. Colton has started chemotherapy and will be going to the top pediatric hospital in Canada, Toronto Hospital for Sick Children once a matching stem cell transplant donor has been identified. Following the transplant, Colton will remain at Toronto hospital for several months of recovery.*

*"Colton is a typical rambunctious boy who loves all things with engines, especially dump trucks, front loaders, and excavators. He could spend all day in a construction zone with a shovel in hand. His favorite snacks are cheese bread and strawberry fruit roll ups and he never ventures far without his prized stuffy named Chipmunk.*

**MORE INFO OR TO DONATE**

**Gord Gamble (902) 222-2196**
